Discover Scuba 2 Dives US\$175	Adventure Diver Course US\$275
Open Water e-Learning US\$400	Advanced Diver Course US\$400
Open Water Full US\$595	Rescue Diver Course US\$450
	Nitrox Course US\$240

Don't want to get up early? No problem.

As far as we know, almost all dive companies make you get up early. Some vacation right? How about a sleep-in after enjoying Cayman's great nightlife? We leave later. Why? Mainly so you can relax on your vacation. But also it gets you the best of everything. Too early and there's not enough sun to light the reefs up. Also 7.30-8am is when every other boat is going out, fighting for the best dive sites. We calmly arrive, well-rested and relaxed after sleeping in, to our pick of any dive site we want.

Private Charters

Want to have us all to yourselves? We understand! Let us know when making your reservation what exactly you'd like to do and we can put together the perfect package for you.

Regular & Repeat Guests

Anyone who dives with us a lot or comes back year after year will automatically get our best rate and will always be considered Friends & Family :) We appreciate you returning to play with us underwater so we pass that gratitude back on to you through our pricing. We'll let you know your super special deal when this happens.

Anything else we've missed?

We're full service, we'll do pretty much anything you want us to do. Want photos or video taken? We can make it happen! Want to use a camera? No Problem! Want a private instructor guided dive? We're here for you. We appreciate that not everyone wants to dive the same so just go ahead and ask and we'll see what we can do.
